

Chi-Wei (Kiwi) Lin

📍 Taipei City, Taiwan ✉️ kiwi@catotter.net 📱 in/7wei ☁️ 24.7wei.xyz

SUMMARY

Driven by the resilience forged in an under-resourced background, I am a tech student and repeat entrepreneur with a track record ranging from **scaling a high-growth e-commerce business to 4,000+ orders and NT\$1.2M in revenue during high school, to building AI-driven EdTech startups**. Currently seeking a technical internship at an enterprise-level company to deepen my engineering capabilities and learn how industry leaders scale high-impact products.

EDUCATION

Master of Business Administration - Institute of Service Science (pre-admitted) | National Tsing Hua University

Bachelor of Business Administration - Program of Management and Technology | National Tsing Hua University | 2026

- **Information Director of Student Association:** Maintained IT infrastructure, developed online voting system, communicate with officials (July 2022 - Present)
- **Teaching Assistant and Student Lecturer:** Led 80+ students in Innovative Design Industry Series Courses (4 credits, September 2022 - Present)

EXPERIENCE

IT Engineer Intern | Microsoft | Taipei, Taiwan | July 2026 - Present

Technical Solution Engineer Intern | Appier | Taipei | October 2025 - Present

- Facilitate efficient client onboarding pipelines by validating MMP setups and **troubleshooting SDK tracking discrepancies** to safeguard data accuracy.
- Bridge the gap between external clients and internal engineers during **product go-live phases by actively diagnosing** and resolving technical roadblocks.
- Standardized technical documentation, reducing average ticket resolution time for common SDK/API integration issues and accelerating client onboarding.

Web Developer | National Tsing Hua University | Hsinchu | November 2022 - Present

- Revamped and maintained multiple official websites, applying **design skills** to deliver intuitive and user-centric interfaces for over **15,000 MAUs**.
- Implemented robust SEO strategies and optimized webpage architecture, successfully boosting **organic reach to over 300,000 monthly impressions**.
- Integrated Google Analytics for data-driven insights, while concurrently managing core network infrastructure, to ensure seamless access and system stability.

Co-Founder, Tech Lead and Business Developer | Huixing Ltd. and Read AI Education | January 2022 - April 2024

Huixing (匯星教育) and Read AI (享讀AI 智能教育) are EdTech startups utilizing AI systems to provide personalized learning paths for high school students.

- Developed an AI-driven education chatbot and online platform impacting 10,000+ students, and established the strategic organizational framework.
- Secured NT\$1.5M in funding, earned the **MOE U-Start Program grant twice**, and successfully led the teams into **NTHU, NCCU, and NSYSU startup accelerators**.

Co-Founder, Tech Lead and Team Presenter | DaoDao Education | Remote | July 2020 - September 2022

DaoDao Education (島島阿學) is a non-profit open-source platform that provides diverse learning resources for 50,000+ students of all ages by 80+ volunteers.

- Architected a **highly cost-optimized serverless architecture** leveraging cloud-native free tiers and CI/CD pipelines, minimizing operational overhead for a NPO.
- Developed the **early-staged prototype**, recognized with **2021 Taiwan Education Innovation Top 100 Award by Parenting Magazine (親子天下)**.

PROJECT

NTHU Data API & MCP | Team Lead | github.com/NTHU-SA/NTHU-Data-API | September 2023 - Present

- Released a **RESTful API with 20+ endpoints** using **Python FastAPI & FastMCP**. Clients included **NTHUMods, a platform with over 10,000 users**.
- Established **K8s architecture on GCP** for scalability and **CI/CD pipelines with GitHub and SonarCloud** for efficiency.

NTHU Chatbot | Team Lead | smartcampus.site.nthu.edu.tw/p/406-1512-240738,r9216.php | September 2022 - Present

- Designed and deployed an **AI-powered chatbot using LLMs with RAG**, secured a **NT\$150K implementation grant** from the university's R&D department.
- Optimized document **chunking strategies and MCP tools** to reduce AI hallucinations when handling complex queries for 5,000+ users.

Pandage - NTHU iGEM 9th Team | Business Developer | 2024.igem.wiki/nthu-taiwan | January 2024 - October 2024

- Developed a solution to accelerate skin wound healing using targeted probiotics, earning an **international Silver Medal at iGEM 2024 in Paris, France**.
- Secured **NT\$1M in funding** as BD and financial officer, recognized with **CTCI Science and Technology Scholarship, awarded by the Vice President**.

AWARDS & GLOBAL EXPERIENCE

- **Project Intern** | The High Bridge Institute (Sponsored by Taiwan Global Pathfinders Initiative / 青年百億海外圓夢基金計劃) | Tokyo, Japan | 2025
- **English Discussion Facilitator** | 71st International Student Conference (ISC) | Osaka, Japan | 2025
- **Team Award Winner & NTHU Representative** | 22nd Cross-Strait Students Debate Competition | Fuzhou, China | 2023

SKILLS

Programming & AI: Python (FastAPI), Prompt Engineering, LLMs, RAG, AI-assisted Development, API Integration

Data & Cloud Infra: Google Cloud Platform (GCP), Kubernetes (K8s), BigQuery, Google Analytics, Looker Studio, Cloudflare, CI/CD, GitHub

Languages: English (Fluent, TOEIC 900/990 Gold Certificate), Mandarin (Native)
