

# CHI-WEI LIN

📍 Taipei City, Taiwan ✉️ [kiwi@go.7wei.xyz](mailto:kiwi@go.7wei.xyz) 🌐 [in/7wei](https://in/7wei) ☁️ [24.7wei.xyz](https://24.7wei.xyz)

## SUMMARY

Tech student and repeat entrepreneur with hands-on work in EdTech and AI. Eager to build impactful products, yet my start-ups revealed gaps I'm keen to close. Seeking an internship to apply—and sharpen—my IT, strategic, and communication skills while fueling company growth.

## EDUCATION

### Bachelor of Business Administration, Specialization in Law and Information Management | National Tsing Hua University

Hsinchu, Taiwan | Expected Graduation: June 2026

- Information Director of Student Association (July 2022 - Present)
- Teaching Assistant and Student Lecturer of Innovative Design Industry Series Courses (4 credits, September 2022 - Present)
- Debater of NTHU Representative Team at 22nd Cross-Strait College Students Debate Competition (2023)

## EXPERIENCE

### Technical Specialist | National Tsing Hua University | Hsinchu | November 2022 - Present

National Tsing Hua University (NTHU) is a top-ranked university in Taiwan, known for its strong research programs.

- Developed and designed the new version of the General Education Center's website for **over 15,000 students and faculties**.
- Implemented SEO best practices, leading to an increase of **300,000 monthly impressions and 15,000 user clicks**.
- Managed internet infrastructure, maintaining 99% uptime while **reducing page load times by 60%**.

### Data Analyst Intern | Lootex | Taipei | April 2024 - September 2024

Lootex is a venture-backed Web3 startup developing a player-centric cross-chain NFT trading platform (valued at over USD 9M).

- Visualized the data and delivered a company-wide dashboard and weekly reports for C-level executives using **Google Looker Studio**.
- Integrated data **from over 10 sources**, including social media, blockchain data, and platform telemetry, into a single dashboard.
- Analyzed and collected both backend and frontend data through **BigQuery, Google Tag Manager, and Google Analytics**.

### Co-Founder, Tech Lead and Business Developer | Huixing Ltd. and Read AI Education | January 2022 - April 2024

Huixing Ltd. and Read AI are 2 different EdTech startups to help Taiwanese high school students explore various learning paths.

- Secured **NT\$1.5M in funding for product development**, an online education platform and an AI-driven education chatbot, impacting **10,000 students**.
- Recognized with U-Start Program by MOE twice, selected for the NTHU, NCCU, and NSYSU startup accelerators.
- Established the company's organizational framework and led the launch of the first product, delivering a 20% cost saving by strategic alliances.

### Co-Founder, Tech Lead and Team Presenter | DaoDao Education | Remote | July 2020 - September 2022

DaoDao Education (NPO) is an open-source platform that provides diverse learning resources for students of all ages.

- Coordinated **80+ volunteers** to contribute to a self-guided learning platform, impacting **50,000 users across Taiwan**.
- Established and designed an **early-staged prototype**, recognized with **2021 Taiwan Education Innovation Top 100 Award** by Parenting Magazine.
- Developed **high performance, zero-cost information architecture, and CI/CD pipeline** integrating backend API, Cloudflare, and GitHub.

### E-Commerce Entrepreneur | Shopee | Remote | September 2018 - August 2020

Shopee is a leading e-commerce platform in Southeast Asia and Taiwan, offering customers fast online shopping experience.

- Founded and solely operated a **high-growth online software licensing business** on Shopee during high school years.
- Generated over **4,000+ orders, NT\$1.2M in revenue with 60% net margins** within the first year through strategic pricing and lean operations.
- Achieved **No. 1 in the Category, 1,300 5-star ratings (99%)**, and **20% repeat purchase rate** through exceptional customer support.

## PROJECT

### NTHU Data API | Team Lead | [github.com/NTHU-SA/NTHU-Data-API](https://github.com/NTHU-SA/NTHU-Data-API) | October 2023 - Present

- Released a **RESTful API with 20+ endpoints** using **Python FastAPI**. Clients included **NTHUMods, a platform with 10,000 users**.
- Established **K8s architecture on GCP** for scalability and **CI/CD pipelines with GitHub and SonarCloud** for efficiency.

### NTHU Chatbot | Team Lead | [smartcampus.site.nthu.edu.tw/p/406-1512-240738,r9216.php](https://smartcampus.site.nthu.edu.tw/p/406-1512-240738,r9216.php) | December 2022 - Present

- Designed and deployed an **AI-powered chatbot utilizing LLMs with RAG** to offer personalized campus information services for 5,000 users.
- Secured a **NT\$150K implementation grant** from the university's R&D department under the Smart Campus Development Program.

### Pandage - NTHU iGEM 9th Team | Business Developer | [2024.igem.wiki/nthu-taiwan](https://2024.igem.wiki/nthu-taiwan) | February 2024 - October 2024

- Developed a solution to accelerate skin wound healing using targeted probiotics, earning an **international Silver Medal at iGEM 2024 in Paris, France**.
- Secured **NT\$1M in funding** as BD and financial officer, recognized with **CTCI Science and Technology Scholarship, awarded by the Vice President**.
